CONCEPT AND DÉCOR

Bale Gede is a contemporary interpretation of classic Balinese design where space and sense of purpose is essential. The name 'Bale Gede' actually refers to a central pavilion that is part of every traditional home compound on the island. It is used for the ceremonial and social activities that are an intrinsic part of Bali's rich cultural heritage and Hindu way of life. Bale Gede has been built to harmonize with the surrounding environment and incorporates natural materials such as sustainably sourced hardwoods and stone. It showcases local craftsmanship and celebrates aspects of Balinese artistry that continues to evolve and be influenced by global design trends.
